

TECHNICAL LITERATURE

SILTEX 30265/CODEEP

SILTEX 30265/CODEEP imparts a good color deepening effect to various kinds of fabrics.

APPEARANCE	:	Clear colorless
CONSISTENCY	:	Liquid
IONOGENITY	:	Non Ionic
pH (5 % solution)	:	4.5 – 7.0
SOLUBILITY	∴	Miscible in water

PROPERTIES:

- SILTEX 30265/ CODEEP imparts good color deepening effects with soft hand feel to various kinds of fabrics, especially polyester woven fabrics.
- Achieves durable color yield and softness properties.
- SILTEX 30265/ CODEEP penetrate deep into fiber due to the appropriate droplet sizes. Thus there is no problem such as chalk marks/uneven color shade on fabrics.
- Good compatibility with finishing bath

APPLICATION:

Depending upon the required shade depth following quantities can be used as guide

Pad-dry-cure process:

Dosage: 30g/l - 50g/l SILTEX 30265/ CODEEP

Condition:	pick-up	65 - 85%
	dipping time in bath	1 - 3 sec.
	Drying/Curing	170°C for 1 minute

STORAGE AND SHELF LIFE:

When stored at ambient conditions SILTEX 30265/ CODEEP has a shelf life of about 12 months.
